## Skills

<b>Development</b>	Angular 1, Angular 2, Javascript, Objective-C, HTML, CSS, GIT.
<b>Design</b>	User Experience Design, Wireframes and Interactive Prototypes, UI Design, A/B Testing. Converting designs into real working products. Photoshop, Sketch, After Effects, Premiere, Logic Pro.
<b>Business</b>	Agile Scrum/Kanban, Business Analysis, Team management.

Over 10 years experience building products from the ground up. Self-taught to keep up with the latest technologies and processes. A deep understanding of designer and developer needs mean I am able to work closely or remotely with other developers and designers.
